

Commercial/Industrial Committee Meeting
September 16, 2009 10:00 am
WMLAR

Present: Thun LeuamChampassak, Michael Horgan, Brent Link, Ron Davis

Meeting called to order @ 10:08 a.m. by Thun LeuamChampassak

Fall event for Muskegon/Tri-Cities Area Planning Progress Report;

Ron Davis & Brent Link toured the Marec (Michigan Alternative and Renewable Energy Center) building in North Muskegon – Tour ok but lots of wasted space & equipment, very informative information.

Facility available for free for the event but would be required to take the 30 minute tour. The Incubator presentation space tour 15 minutes. 1 room will hold 50 people.

Muskegon Chamber very receptive in helping with space as well.

Michael Horgan says Steve Willoughby, LEED AP is willing to be a speaker for the event. Michael will contact him with the subject.

Discussion on possibilities for this event – Take a sample project – use it as a skeleton for subjects to speak on - Make it a 3 part series in 3 different locations.

1. Green – sustainability – different aspects of it
2. Brownfield
3. Leed Certification

Postpone the event until early November or possibly January 2010

Networking opportunity;

Robyn Vandenberg & Brent Link checked out the Chinook Pier facility project in Grand Haven. Robyn will put something together and present it to this committee at a later date.

A suggestion was made to post Brownfield phone numbers on our Linked in page

Next Meeting – October 21, 2009 10:00 am

Adjourn 11:25 am

Minutes prepared by Judi Henshaw, Staff Liaison
